Ideas to steal:

1. Wallpaper is back. Wallpapering your favourite room, like the bedroom or living space, looks instantly moody and inviting.
2. Adding gold accents, like vases, chairs and photo frames is a simple way to make an everyday space and furniture look elegant.
3. Lighting is what makes a room. Adding a table lamp or ornate chandelier is glitzy but practical.
4. Velvet cushions look as rich as they feel. Go for deep shades like navy and burnt orange and throw in a few metallic cushions for contrast.
